

Call for Abstracts: Stewardship Roundtable Poster Presentation

DEADLINE: ~~August 1, 2018~~

Deadline extended to August 10th

The Stewardship Centre for BC and Bird Studies Canada in collaboration with the 27th International Ornithological Congress (IOCongress 2018), the Vancouver International Bird Festival (VIBF 2018), and partners, is convening a [Stewardship Roundtable](#) on Friday, August 24, 2018 – a forum and showcase of innovative practices championed in our province and beyond. As part of this event, the Stewardship Roundtable Coordinating Committee is inviting submissions for poster presentation proposals relevant to global bird stewardship. The Roundtable will feature panel presentations, world café style discussions, story-telling and networking around the following six themes:

- Cats and birds living in harmony
- Climate adaptation for birds and wildlife
- Urban habitat for birds and wildlife
- Wildlife management areas / Important bird areas and shorelines
- Birds and building collisions
- Co-benefits of agricultural lands as bird habitat

Is your research relevant to the themes of the roundtable? We invite you to share your research with stewardship practitioners, the International Ornithological Congress participants, and the general public. Please join the discussion of the stewardship of bird and wildlife populations, and their habitats, in BC and elsewhere. The poster session will take place during a networking event from 4:30 – 6:30 pm. Participants will vote on the best poster, for which there will be a non-cash prize.

PLEASE NOTE: This poster session is separate from the official poster session of the IOCongress. Presenters may present the same work at both events. Poster presenters must be registered attendees of the Stewardship Roundtable 2018.

To qualify:

- Poster presentation abstracts will be accepted from domestic and international researchers affiliated with academic institutions and/or organizations involved in research on any of the six themes.

Benefits:

- An opportunity to discuss your research with leaders engaged in the stewardship of bird and wildlife populations, and their habitats.

Submit your poster abstract by August 10 2018 at: <https://goo.gl/4WKvNN>
